Pressure Balance Latex System™

Experience Revolutionary Comfort with the Pressure Balance Latex System™

Introduction

NSC Medical introduces the industry's first patented Pressure Balance Latex System™, setting new standards in comfort and support. This mattress features a unique combination of a patented pressure balance latex top layer and a soy Medi-foam base, designed to deliver unparalleled pressure point relief and cloud-like comfort. Let's explore the features that make this mattress truly revolutionary.

Pressure Balance Latex System™

Mattress Core:

Top layer: 10.2 cm (4 in.) patented pressure balance organic latex

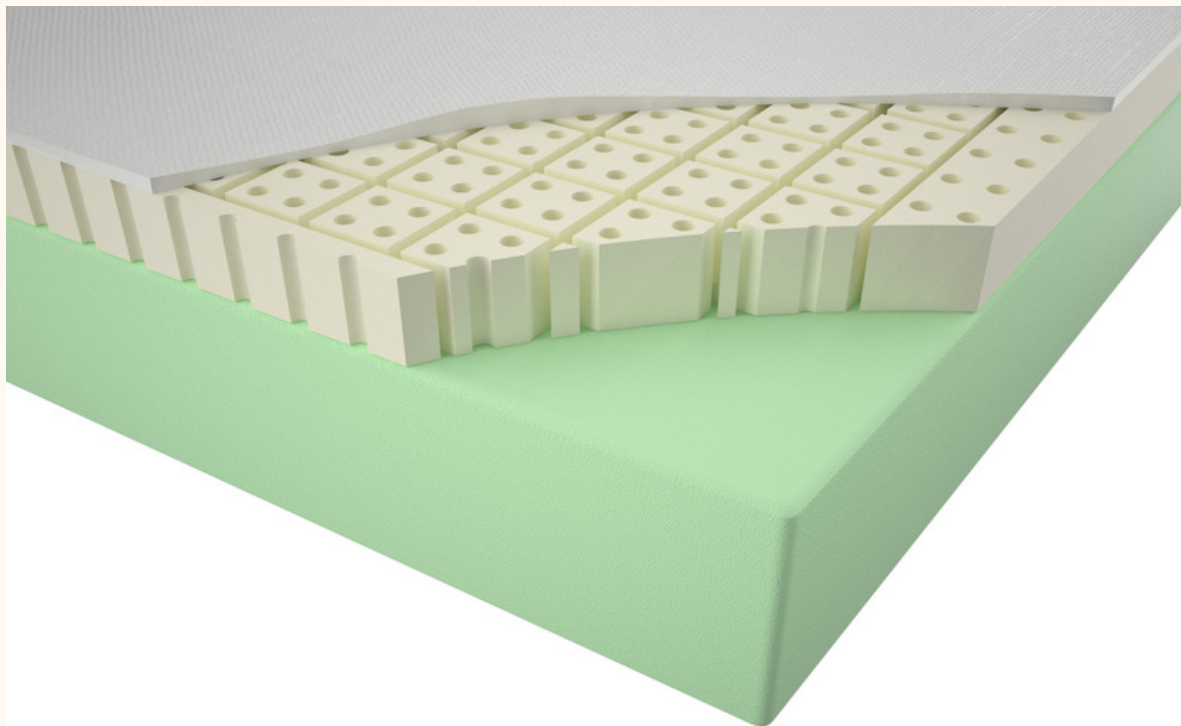

Bottom layer: 19.1 cm (7.5 in.) Soy Medi-Foam base

Features:

Mattress Composition and Comfort:

Mattress comfort scale: medium-firm

Latex is hypoallergenic and all-natural

Cover and Design:

- Organic cotton cover manufactured in a GOTS certified facility in Canada
- Non-removable French cut, organic cotton cover with piping around the bottom perimeter
- Handmade mattress (+/manufacturing variance of 2.5 cm [1 in.] on the crown height of the mattress)

Indoor Air Quality:

Low Volatile Organic Compound (VOC) soy emissions for indoor air quality (less than 0.5 parts per million)

Recommended Bases and Adaptation:

Mattress is recommended for the following bases: posture box, box spring, slat system, or adjustable bed.

Please allow 14 to 21 days for NSC Medical mattresses to adapt to your body

Certifications

- TUV (Technical Inspection Association) certified and tested for validation of quality on German standards
